These two teams are considered the strongest of the junior aggregations in this section and there will be a carload of rooters on hand.

The Ritchie Wild Cats challenge the Ritchie Juniors for a game Saturday, October 27. The Wild Cats are from the lower end of "De Ate," and the Juniors from the upper end. The game will be for blood.

THE UNIVERSITY WON

The First Game at Home, Defeating Westminster Decisively.

MORGANTOWN, W. Va., Oct. 14.—The University foot ball team played its first game on the home grounds today, as a conclusion to the inaugural season. The opposing team was the Westminster college eleven. The University won by a score of 18 to 0, making three touchdowns and as many goals in two fifteen-minute halves. Westminster kicked off by a succession of heavy rushes through Westminster's line and some swift playing around their ends, the University scored before time was called for the first half, McWhorter making the touchdown.

The second half was a walkover for the University. Westminster fumbled continuously, and when they got the ball could not gain an inch. The University, on the other hand, played a fast game, and smashed the opposing line and around their ends at will. Two touchdowns were scored in eight minutes, and Yeager easily made the goals.

The heat was so intense that the University team made no further effort to score, as the men want to be in prime condition for the game against Marietta on Saturday. All of them showed up in splendid form to-day. Their interference in the aggressive plays was especially noticeable. Noble and Whitman handled the ball speedily, and with splendid interference were able to make several pretty runs. Great interest is being manifested in the game on Saturday against the University's old rival. A special train will be run to Fairmont, taking very nearly the whole student body and a crowd from the town. The team is confident of winning.

BOXING BOUTS.

This evening there will be several boxing bouts among local talent. At Stephens' hall, South Side, the Blue Seal Athletic club has prepared an interesting programme. Auber and Carles will spar six rounds, and Lynch and More will figure in a like number. Some interesting sport is promised this evening in the same line at Driscoll's hall, East End.

AMUSEMENTS.

It is said fashion as well as history repeats itself. As we all desire to be on the right side of Dame Fashion, we should shoulder caprice and revive the elegant gowns affected by the ladies of the latter part of the last century, such as in their perfection in the play of "Madame Sans Gene," which will be presented at the Opera house next Thursday, October 21. In this masterpiece of the favorite French drama, at Sardou, Miss Marlon Abbott plays the role of Madame Sans Gene, and will bring the performance to a close with many beautiful costumes, well cultivated, which was thoroughly enjoyed by the audience. Mr. Whyte, as Garb, the miser, was excellent. Mr. "Chas. Gorty," who was seen for the first time this week, sang the part of "Greenbaum." He has a very pleasing voice and is a good actor. The opera will be repeated this afternoon and the house should be crowded. "Mikado" will be given this evening.

MIKADO TO-NIGHT.

Did you see the performance of "The Chimes of Normandy" by the Gonzales Opera company at the Opera house last evening? If not you missed a rare treat, as it was one of the finest renditions of that beautiful opera ever given in Wheeling. A new prima donna made her bow in the person of Miss Minnie Bennett. As Germaine she was the star of the evening. She possesses a rich mezzo-soprano voice, well cultivated, which was thoroughly enjoyed by the audience. Mr. Whyte, as Garb, the miser, was excellent. Mr. "Chas. Gorty," who was seen for the first time this week, sang the part of "Greenbaum." He has a very pleasing voice and is a good actor. The opera will be repeated this afternoon and the house should be crowded. "Mikado" will be given this evening.

PAYTON'S COMEDY COMPANY.

Commencing Monday evening, Payton's Big Comedy Company will present at the Grand Opera house a series of comedies and dramas, each mounted and staged with some of the handsomest scenery and properties ever seen in Wheeling. Every attention is

paid to the details, and patrons of these performance may feel assured that they will witness complete and artistic productions. During the action of the plays there will be special features introduced in singing and dancing specialties.

A DARING ROBBERY.

A St. Mary's Man Loses \$65—Assaulted By Two Strangers.

Last night about 9 o'clock, a young man who gave his name as James Hubaker, and his home as St. Mary's, W. Va., applied to Officer Joe McCausland for assistance in recovering \$65 that he had been robbed of a few minutes before. Hubaker was unable to tell a clear story of the robbery, but from what could be learned through an interrogation, he left a Water street saloon after dark and went to the skiff ferry landing, at the upper end of the wharf, intending to go over to the Island. While near the water's edge he was set upon by two strangers, who threw him to the ground and took his money, aggregating \$65. He could not give a minute description of the robbers, but the police were working on the case last night and hoped to land the thieves.

LOCAL BREVITIES

Matters of Minor Moment in and About the City.

The council committee on accounts has been called to meet this evening at 7:30 o'clock.

Mrs. R. N. Arkie will build a two story frame house on South Post street. Ground has been broken for the foundation.

The Woman's Musical Club having changed its meeting day to Friday, will meet at the A. O. U. W. Temple at 8 o'clock this afternoon.

Information has been made before Squire Greer against a well known character for stealing a boat on the South Side. The case will come up in a day or so, and interesting developments are expected.

Mrs. Mullerkey, of the South Side, who was charged with obtaining money under false pretenses from the Globe Tea Company, had a hearing before Squire Greer and was acquitted, there being no evidence to show an intent to defraud.

The incorporation certificate for the Belle Isle Park Association, the formation of which was mentioned exclusively in the Intelligencer, was received in this city yesterday. In a few days a meeting of the stockholders will be held and directors and officers elected.

The funeral of Charles R. Davis, whose tragic death in the Ohio river has been told in the Intelligencer, occurred yesterday afternoon from the McMechen M. E. church, of which Mr. Davis was a member. Rev. Spencer King officiating. A large concourse of friends followed the remains to their last resting place.

He is employed as a telegraph operator on the Fort Wayne & Chicago division of the Pennsylvania lines, and has just returned from a visit to Clarion, Pa. THE RIVER.

The marks at 6 p. m. showed eleven inches and falling. Weather cloudy and warm.

The funeral of the late Captain J. Fred Cline, owner and master of the packet Lexington, takes place to-day under the auspices of Wheeling Lodge No. 114, Knights of Pythias, of which he was a member. A number of steamboatmen will attend.

The Guyandotte came in from below yesterday morning, drawing all the water there was in the channel at its shallowest places—fifteen inches. She departed with a lighter at noon for Matamoras, and was drawing about sixteen inches. Although this was more than the stage on the bar at the mouth of the creek, the little packet washed herself over on her own swell.

While the marks at the public landing are being changed it would be well to make still another change. According to the marks as now arranged there is eleven inches of water at Wheeling. In reality there is fifteen inches in the channel in the shallowest bar on the river front, and that is what the stage of water should be calculated from. Anything else is deceptive to the rivermen.

BELLAIRE.

All Sorts of Local News and Gossip From the Glass City.

The coal dealers in this city are having war among themselves in cutting the price of coal. This condition is largely the result of the cutting which the operators engage in when they bid on coal to supply the water works and school buildings. The prices of coal delivered at a place in the bins in this city are, lump five cents, mixed four cents and nut three cents. The demoralization is further increased by mines out the creek, operated by miners, selling at prices which leave little and perhaps no margin for profit. Operators ought to conduct their business in such shape as to give them some profit, and men who, while mining coal for others insist that there should be a price that allows a profit to all concerned, should, when they come to operate mines, do as they have insisted others should do. Business carried out at a loss is very bad business, and that is exactly the trouble with the local coal business in Bellaire at this time.

R. T. Hoover, who was brought to this city Tuesday evening from Barnesville, paralyzed, died last evening at 9:30 o'clock, aged fifty years. Mr. Hoover was a well known citizen. He was born at Armstrong's Mills. He leaves a widow and one daughter.

When the appetite fails there is no use in trying to tempt the palate with delicate food. No matter how good and well cooked and "appetizing" the food may be, it cannot give any nourishment unless the stomach is able to digest it. Nature indicates the state of the constitution by the loss of appetite. This is an unfailing indicator. It shows that something is fundamentally wrong with the nutritive functions.

The only true natural relief must be as searching and fundamental as the trouble it aims to overcome. It is the thorough deep-seated character of Dr. Pierce's Golden Medical Discovery, which causes the marvelous efficacy in all bilious and digestive difficulties. It creates that healthful vitality of the entire digestive and nutritive organism which produces both the natural desire for food and the organic capacity to assimilate and convert it into nourishing, revivifying blood and healthy tissue. It gives appetite, digestion and sound sleep, and builds up solid muscular strength and vital nerve-energy.

H. H. Thompson, Esq., of P. O. Box 4, Ripple Bluff Co., Penn., writes: "I had been troubled with extreme vomiting in summer season, always after eating, had to be very careful at times to get anything to stay on my stomach at all; had been taking other medicines, but without effect. I heard of your 'Golden Medical Discovery' and thought I would give it a trial. I used about five bottles of it and think it the only medicine that did me any good, as I have a splendid appetite now, and am not using any medicine at all and don't think I need any more."

A man who is suffering from the evil effects of constipation doesn't feel like work and can't even enjoy his leisure hours. Dr. Pierce's Pleasant Pellets are a sure, safe, and permanent cure for constipation. They are tiny, sugar-coated granules. One little "Pellet" is a gentle laxative, and two a mild cathartic. They never gripe. Dishonest druggists try to get you to take a substitute for the sake of the added profit.

Physical sensitive-ness is a development of civilization. Medicines that cured our rugged forefathers are liable to kill us.

MARTIN'S FERRY.

Haps and Misses in the Thriving City Across the River.

Ground was staked off and the work of excavating commenced yesterday for the new tin plate works to be erected by the Laughlin Company. The first grading is for the tin house, which will be an L shaped building of large proportions, and adjoining this will be a similar building to be used as an assorting house and ware house, both of which will be on the east side of the main building.

The main building will probably be large enough for eight hot mills, although only six mills will be put in at the start and this will be a big tin mill of itself and will be a steel structure. A new electric light plant will be built, which like the other departments will be complete in every detail and will have more than double the capacity of the present electric light plant. The contracts have not been let for the principal buildings and machinery. The construction will, it is understood, be in charge of John Hayne. The excavating is in charge of T. J. Stringer. The contractor for the stone work, W. J. McEain, is ready to begin work. Stone is already arriving.

Gibson was accused of shooting at his daughter and resisting arrest.
